

## **Statement from WD-40 Company in Response to WD-40® Multi-Use Product Ban**

The following statement may be attributed to a spokesperson for WD-40 Company:

It has recently come to our attention that false information is circulating online that WD-40® Brand products are being banned in Canada. This is not a true statement. Although there are currently regulatory changes taking place in Canada, we have been aware of these regulatory changes and have been preparing for them for some time.

All WD-40 Company products including WD-40® Multi-Use Product, WD-40 Specialist®, and 3-IN-ONE® brands will be compliant with the new regulations as of January 1, 2024. Our products will remain on Canadian store shelves and continue to solve problems in workshops, factories, and homes.
